DIRECTORS' REPORT
FOR THE YEAR ENDED 31 DECEMBER 2012

The directors present their report and the financial statements for the year ended 31 December 2012.

PRINCIPAL ACTIVITY

The principal activity of the company is the provision of services to the Home Builders Federation ("the HBF") in connection with its function as a trade association.

BUSINESS REVIEW

The home building industry continues to face significant and wide ranging challenges that emphasise the need for a strong and influential representative body that can robustly work on its behalf. The wider economic downturn continued to have a constraining effect on mortgage availability, whilst the introduction of a new Localism based planning system combined to ensure another challenging year for house builders. Housing supply remained roughly consistent with 2011 levels with around 110,000 new homes built – against a need for around 230,000.

Throughout the year the HBF worked to influence Government policy that impacted upon members' businesses and create a better climate within which house builders could operate. This included:

- Working with lenders to develop and introduce a mortgage indemnity scheme to allow the purchasers of new build homes to get a 95% mortgage. The HBF had initially secured Government backing for the proposal and has worked throughout the year to ensure the scheme was launched and subsequently implemented successfully. The investment in HBF Insurance PCC Limited referred to in Note 7 arose from this work.
- Working with Government more generally to develop a range of support measures aimed at increasing housing supply. These included proposals such as the release of public sector land for housing and the Get Britain Building scheme.
- Acting as a conduit between Government and the industry to ensure the smooth implementation of FirstBuy, a shared equity scheme that uses public money to maintain house building supply and assist first time buyers to purchase a home. The HBF representation also resulted in an additional allocation of funding being announced to ensure the scheme continued past its initial end date.
- Working with Government and Local Authority representatives to ensure the smooth introduction of the new NPPF Localism based planning system. The HBF has also represented the industry at Local Authority Inquiries where housing need is established and plans are adopted to address the need.
- Continuing the focus on the formulation and shaping of policy that will influence house builders in years to come, particularly as regards The Zero Carbon initiative, S106 Agreements and regulatory costs in general and the Community Infrastructure Levy.

The Company reported a profit before tax of £43,981. Throughout 2012 the HBF successfully sought to ensure that, despite the difficult economic climate, it maintained its existing members and attracted new members.

GOING CONCERN

The financial statements have been prepared on the going concern basis. This assumes that the company will be able to meet its liabilities as they fall due. In assessing the appropriateness of the going concern basis the directors have reviewed cash flow forecasts and will continue to review the membership base and the appropriate level of subscriptions to enable the company to continue in operational existence for the foreseeable future recognising the current economic outlook. Accordingly, the company continues to adopt the going concern basis in preparing the financial statements.

HOME BUILDERS FEDERATION LTD
(A company limited by guarantee)

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2012

1. ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The company is the parent undertaking of a small group and as such is not required by the Companies Act 2006 to prepare group accounts. These financial statements therefore present information about the company as an individual undertaking and not about its group.

1.2 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Leasehold improvements	-	Depreciation over primary period of lease
Fixtures & fittings	-	Depreciation rate 16.67% per annum on cost
Office equipment	-	Depreciation rate 33.33% per annum on cost

1.3 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.

1.4 Turnover

Turnover represents members' subscriptions which are recognised in the period to which they relate and only on receipt of the subscription monies.

1.5 Operating leases

Rentals under operating leases are charged to the Profit and loss account on a straight line basis over the lease term.

1.6 Pensions

The company operates a defined contribution pension scheme or, as an alternative, makes contributions to the personal pension plans of employees. The amount charged to the profit and loss account in respect of pension costs and other retirement benefits is the contributions payable in the year.

On 17 August 2007, after extensive negotiation beginning in November 2005, the company agreed a settlement with the Trustees of the Construction Confederation Final Salary Scheme for the withdrawal of the company from the scheme effective from 4 August 2005. The company placed £1,500,000 into an escrow account as part of the settlement and agreed to make a further contribution of £400,000 plus interest from 17 August 2007 until receipt of approval from the Pension Regulator and the High Court. The Pension Regulator considered that there was no requirement to secure his approval and High Court approval was obtained on 17 July 2008 after which payment of £1,908,933 including interest of £8,933, was made. The final contribution of £408,933 was provided in 2008 as £1,500,000 had been provided in earlier years. The company's wholly owned subsidiary, Housebuilder Media Limited had also placed £500,000 into the escrow account as its share of the overall cessation settlement and this too was released in 2008 and paid over to the Trustees following the High Court approval.

The release of the funds represented an intermediate milestone in the conclusion of these pension matters. During 2009, the Construction Confederation (sponsoring employer to the Construction Confederation Staff Pension Scheme) was declared insolvent and unable to meet its obligations. As a result, the Trustees of the Construction Confederation Staff Pension Scheme entered into negotiations with the Pensions Protection Fund ("PPF") for the Construction Confederation element of the scheme to be admitted into the PPF.

On 11 May 2010 the PPF confirmed that, based on the information provided, the scheme is eligible to enter an assessment period. During this assessment period all data held by the Scheme is reviewed for accuracy to ensure that members receive the correct compensation payments under the PPF.
